

Lawn Watering Restrictions

Effective Immediately

6/23/21

The water use in Town during June has been significantly higher than in recent years for this month. The extreme heat and wind, coupled with lack of precipitation, has driven this situation. There is no relief in sight for the hot and dry weather. In anticipation of the continued hot and dry weather trend for the duration of the summer, the Sheridan Town Council voted to issue lawn watering restrictions effective immediately. Please limit your lawn watering to odd/even days according to your street address. This does not impact your ability to water flower and vegetable gardens. We are not limiting watering hours at this time. We have received reports of irrigation water rights being turned off already and reports of private wells running dry. We are taking this step to conserve our water resource to ensure sufficient water for the duration of the summer. If you have any questions, please contact Town Hall at 842-5431.

THANKS!!!

Bob
